Heifers purchased in this sale by Ohio Junior Exhibitors can show Sunday, March 17 in the OBE Junior Show.

GENERAL SALE INFORMATION:

PERFORMANCE DATA: The Expected Progeny Differences (EPD's) represented in this catalog are generated through the American Shorthorn Association Digital Beef program and reflect the run as of 1/23/2024.

American Shorthorn Association Genetic Condition Disclaimer: Unless an animal is listed on the American Shorthorn Association "genetic condition status list", the American Shorthorn Association makes no representation of any kind as to whether or not the animal has a genetic condition.

Air Travel: Commercial flights are available to Columbus, OH.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Directions: From Interstate 71, take 17th Ave. west to the fairgrounds gate and follow signs to the livestock arena.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners or sale manager.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states.

Liability: Each animal will be at the buyer's risk as soon as sold. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Breeding Guarantee: The Standard Breeding Guarantee as endorsed by the American Shorthorn Association will be followed.

Insurance will be available for your purchases from the sale clerk.

Announcements made from the auction block take precedence over all printed material in this catalog.

Mail Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Update On Breeding And Calving Information: There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

With Titan being out of our 1207 donor and Byland Soggy Dog his name describes him to a T. Titan's EPD profile alone is very impressive with all traits above average but one. Phenotypically he is very sound, Free moving, huge ribbed and lots muscle. Being a fallborn he is ready for heavy service and being homozygous polled no worries with horns.

Here is a rock solid, roan, A&T Captain Obvious 606S ready to go to work for you. Nearly 20 years ago since he was born, the Captain Obvious cattle were certainly popular and are hard to find direct sons and daughters today. This young bull should add some appeal to his calf crops, as you find Foolin Around and Aviator on the bottom side of his maternal breeding. Those sires are famous for raising good looking stock. 12L ranks in the top 30% of the Shorthorn breed for his MARB EPD.

Full sib in blood to the National Champion Shorthorn Bull CF Payweight X ET that was raised and successfully shown by Cates Farms. The Crystal Lady cow family has been dominating the shorthorn breed as of late, and what better way to obtain those genetics than to incorporating this young herd sire prospect into your very own breeding program. Don't hesitate to own this Flash son that will interject his progeny with the added size, look, and skeletal quality that we have seen from this proven mating.

Won't Stop 110L was named Grand Champion Shorthorn Plus Bull at the 2023 IL State Fair, and is one of the very first sons out of CCS Can't Stop 43J. We're excited to see the low maintenance delivery and explosion of growth coming out in Can't Stop's progeny. Won't Stop is a prime example of said growth, being born unassisted at only 62 pounds from a first calf heifer. He's a bull with the genetic potential to be a calving ease sire without sacrificing the added muscle and power that we so desperately need in the Shorthorn breed. Being a 7/8 Shorthorn, there is opportunity to have purebred offspring out of Won't Stop if bred to a purebred female.

ST	13	\$F	41.45

This Red Heifer, out of TRNR Excalibur 262 ET and a Near Perfect Cow is going to be a club calf producing mother when she grows up. Stout and correct made is probably the best description for her. We have used TRNR Excalibur 262 ET a good bit over the last few years and I cannot think of one that has not impressed me. I think that if you want a heifer that is going to produce a good show steer in the future this is your heifer.

This all white heifer has been a favorite of ours since she hit the ground. She is cool fronted, Big Bodied and Sound. Her mother is really broody and she is just like her mom. We purchased her mother from our good friends at Foster Farms as a heifer and glad we did. This heifer is sired by TRNR Excalibur 262 ET, who was raised by Turner Shorthorns and graced the pastures of 4D Shorthorns in Oklahoma for many years. This heifer will be a great addition to any herd.

This red neck roan heifer is what I hoped for when I purchased the embryo package from the Revival. She is gentle and ready to go. Her dam Hill Haven Breathaker 35Y was 3 time grand and reserve champion at the Toronto Royal and has raised many high sellers and champions for Hill Haven. Her sire is Little Cedar Worldwide who was reserve grand champion at the cattleman's congress has done great things for the breed in the show ring and pasture. This is a royal pedigree for sure.

One thing that is consistent in our offerings in both the MI and OH Beef Expos is the longevity bred into each consignment. So rest assured we have developed them with that in mind. We want you to think of the NBS prefix as an investment that pays. The bonus are the banners you can hang with heifers like Misty, and those you will raise along the way after she is producing. She will have a "Worldwide" presence in the ring which is definitely consistent with his progeny.

Bred to JSF Bond 106H on June 22, 2023, then pasture exposed to TOF Steel 55K ET. TOF Duchess 42K is a stout made, soggy bodied, and built like a future brood cow. Her pedigree is TOF prefixes top and bottom, tracing back to breed leaders like Captain Obvious, Powerplay, McCoy, and Jake's Proud Jazz. That is a lineup of bulls known for producing hard-working Shorthorn females. You will be excited when this one calves, and even more so when you get a nice return on investment selling that standout first calf! The Bond daughters were hotly demanded at Maternal Event sale in December. Top 20% MILK, MARB on her EPD profile.

This heifer has been an eye catcher since the day she was born. Power, mass, and muscle it's hard to pick where to start. This march born quarter blood stands out in the AORB division and has been shown this fall by a first time showman and has a great disposition and can dual register as a Chi.

This heifers full sib stood second in her class to the eventual champion heifer last year and was very popular in the sale ring! She is an extremely broody and clean fronted female. The Anna cow family never disappoints. She is 7/8 blood and will produce purebred calves when mated to purebred Shorthorns.

Buy her, take her and show her.. She wants to be shown! These half angus, half shorthorn plus cattle are built so good and excel in the show ring as a plus; she would be no exception. She is sound, deep with a flashy look from the side. We love working on this one because she is a complete sweetheart. She would be a great addition to anyone's show string or herd.

A young plus heifer, but don't let her age fool you. Flower packs a lot of bone, mass, and shape. She is out of a big 180 cow and sired by the famous Hill Haven Firestorm. You can't go wrong with this powerful pedigree. Take this girl out and show her or make her a great cow prospect. What a great addition to any herd. Flower is extremely calm in disposition and would be perfect for a young showman.

Little different kind of plus.. this one has a plus one cooking! As half shorthorn and half Charolais, Peaches has the most beautiful peach roan color. Peaches made a one showing debut back in her show days and she brought home a reserve breed banner. Peaches has been confirmed bred via blood test twice because we wanted to make sure she was settled before we offered her as a bred. **She is bred to Green Castle Shorthorns purebred calving ease bull "Red Dirt Road" and due the first of April so pretty quick return on your investment right here.** I'd be excited to calve her out too with the RDR in her, but we will let you all bid it out for the honors!

After our 2023 Ohio Beef Expo success, we knew it would be tough to defend that title in 2024, but we are definitely not quitters so we are darn well gonna try! We've dug deep in bringing a blue roan Shorthorn Plus pair with a fall born heifer of exceptional quality. This coming four year old, has done an exceptional job raising calves for us, has been an easy keeper and is bred back the same way as her October heifer calf. This little "hottie" out of DJS Hot Investment will command attention in the showing and surely win some banners in the fall division.

PVF Journey 98J ET was a purchase from 2022 The Bull Sale, lot 3, at Paint Valley Farms. Journey is homozygous polled, scanned a 15.8" ribeye and has an IMF 4.77. He is above average for most traits measured, while in the top 10% for yearling weight, top 5% or

better for WW, milk, REA, marbling, \$BMI & \$F. He will add performance and grow to a calf crop without sacrificing style and eye appeal. His dam JSF/RB Meredith 7W from Jungles needs no introduction and at almost 15 years old is still raising natural calves. His sire, Byland Flash is very popular and utilized by breeders from many segments including the show ring. Add Journey to your tank today! Not recommended for use on heifers.

With the loss of my father, John Ritchie, last year we have decided to liquidate the genetic inventory in our possession. The tank has been maintained by COBA/Select Sires and the contents have been itemized as accurate as I can get. The tank and contents are selling as is. Within the contents you will find Shorthorn genetics that have left a mark in the breed. These embryos were to be the foundation of our herd and are now able to be the foundation for yours. They are from foundation females GF Miss Annie Oakley 720 ET and Sutherland Anne 602 paired with several legendary breed sires.
